Product Description

Eurofighter Typhoon: RAF Edition in 1:144 scale Discover the precise model kit of the Eurofighter Typhoon in Royal Air Force livery, a true masterpiece for passionate modellers. This 1:144 scale kit impresses with its meticulous attention to detail and authentic reproduction. With 63 individual parts, it offers a demanding and at the same time captivating challenge. The finished Eurofighter measures 111 mm in length, 37 mm in height and has a wingspan of 76 mm. Suitable for modellers aged 12 and over, this kit corresponds to difficulty level 4 and therefore requires previous modelling experience. **Scope of delivery:**- 63 precisely manufactured components- Detailed assembly instructions- Base colours for authentic painting- Glue and brushes for assembly- Decals for the version "Eurofighter Typhoon - No IX (B) Squadron RAF Lossiemouth 'Batman' Agressor scheme ZJ914 / WA-T., November 2020" This kit is ideal for advanced modellers (Level 4). It requires experience in gluing and painting and is ideal for anyone who wants to further develop and refine their modelling skills. **Special features:**- Finely textured surfaces with recessed panel joints- Detailed cockpit for a realistic representation- Authentic design based on the current high-performance multi-role fighter aircraft- Includes special RAF decoration for an exclusive look **Background information:**The Eurofighter Typhoon represents the pinnacle of modern fighter technology and is an integral part of the Royal Air Force. Its versatility in air combat and ground attack missions makes it one of the most advanced multi-role combat aircraft in the world. This model kit captures the essence of the Eurofighter Typhoon and offers modelling enthusiasts the opportunity to recreate a piece of modern military history. With its impressive representation of the "Batman" Agressor version of the aircraft, which was stationed at No IX (B) Squadron RAF Lossiemouth in November 2020, this model will be a highlight in any collection. **Attention!**Not suitable for children under 36 months.- Recommended age: 12+ years- Scale: 1:144- Components: 63
