### Product Description

Detailed model kit Jagdpanzer IV L/70 on a scale of 1:76. Discover the impressive world of model making with the Jagdpanzer IV (L/70) model kit, an exquisite representation of military history on a scale of 1:76. With an impressive 83 parts, this kit offers an authentic replica of the feared Jagdpanzer IV L/70, which was deployed in selected tank destroyer units from August 1944. The dimensions of this model - with a length of 112 mm, a width of 39 mm and a height of 25 mm - ensure a realistic and imposing appearance. The kit is suitable for modellers aged 12 and over and falls into the Level 4 category, which means that it is ideal for advanced modellers who have experience in gluing and painting. Included:- Main components of the Jagdpanzer IV (L/70) model- Diorama plate with replica ruins for a lifelike presentation- A detailed figure to complete the scenario- Authentic representations of the 116th Panzer Division, Army Group H (Army Group H), Panzer Division, Army Group H (Ruhr, March 1945) and the 20th Panzer Division (Russia 1944)- Basic paints, glue and brushes for an immediate start in the modelling world- Special 2024 reissue with updated features. This model kit is perfect for advanced modellers (level 4) who are looking for a challenge. Good gluing and painting skills are required to emphasise the historical accuracy and detail of the model. Special features:- Precisely manufactured parts and realistic design- Historically accurate depictions of various divisions- Inclusion of a diorama plate enhances realism and display quality- Includes all necessary materials for immediate modelling. Background information: The Jagdpanzer IV L/70, a key piece of German anti-tank strategy towards the end of the Second World War, was renowned for its strength in long-range combat. This detailed replica brings an important piece of military history to life and allows modellers to explore the technical and historical aspects of this impressive war vehicle. Ideal for history buffs and modelling enthusiasts alike, this kit not only brings the fascination of modelling to your home, but also a piece of history. Caution! Not suitable for children under 36 months.- Recommended age: 12+ years- Dimensions: 11.2 x 3.9 x 2.5 cm- Scale: 1:76- Components: 83
