Product Description

Fennek armoured reconnaissance vehicle in 1:72 scale Experience a fascinating challenge in 1:72 scale with our model kit of the Fennek armoured reconnaissance vehicle. This detailed kit, consisting of 90 precisely manufactured parts, brings the most modern reconnaissance vehicle in its class to your home in miniature format. With a length of 77 mm, a width of 34 mm and a height of 25 mm, this model is a true work of art in miniature. It conveys an authentic building experience and at the same time brings you closer to the history and technology of the Fennek. Scope of delivery:- 90 highly detailed components- Various weapon systems: 7.62mm /0.5 inch MG or 40mm grenade launcher- Basic paints, glue and brushes for an immediate start to building- Detailed building instructions Ideal for advanced modellers (level 4) who have experience in gluing and painting models. The kit requires skill and precision and therefore offers a rewarding challenge for ambitious modelling enthusiasts. Special features:- Detailed surface structure for realistic representation- Flexible armament options for individual design- 2024 reissue: A modern interpretation of a classic design- Authentic replica of the Fennek armoured reconnaissance vehicle, based on joint development by Germany and the Netherlands Background information: The Fennek armoured reconnaissance vehicle, handed over to the troops in December 2003, symbolises a new generation in military vehicle technology. The design, development and testing of this ultra-modern reconnaissance vehicle was the result of unprecedented co-operation between the Netherlands and Germany. As a modeller, you now have the unique opportunity to hold and experience a piece of modern military history in your hands.- Recommended age: 12+ years- Dimensions: 7.7 x 3.4 x 2.5 cm- Scale: 1:72- Individual parts: 90
