Product Description

The exciting quiz challenge for on the go! Quiz your way through the world of superheroes, supernovas, supermarkets and superstars. Which of you is the greatest Bezzewizzer? BEZZERWIZZER Pocket is the compact version of the popular classic quiz game. In teams - whereby teams can consist of one or more players - answer questions from 16 categories over several rounds. In each round, each team is given four categories from which to answer questions. Depending on which field a category is on, the correct answer scores one to four points. So choose wisely where you place a category. In the quiz game BEZZERWIZZER Pocket, you not only score points if you answer your own questions correctly - but also if you answer your opponents' questions. Your opponent doesn't know which German capital is the most northerly or what a bibliophile collects? If you do, play a BEZZERWIZZER tile and secure the points. And if you are more interested in main courses than capitals, then play a ZWAP tile and simply swap your geography question with your opponent's "food and drink" question. The team that reaches the finish line first wins. - Number of players: 2+ players- Age: 15+- Playing time: 30+ minutes Contents:- Cards: 16- Envelopes: 16- Category tiles: 16- Bezzewizzer tiles: 8- Zwap tiles: 4- Playing pieces: 4- Box with scoring track: 1
