Product Description

VW T1 Kastenwagen (Gulf decoration) Model Set - Complete kit with accessories Experience the construction of the iconic VW T1 Transporter from the 1950s in its legendary Gulf Oil paint finish. This comprehensive model set will make the hearts of experienced modellers beat faster and offers everything you need for a detailed replica of the original. The set includes a multi-part body, movable side doors and swivelling wheels that guarantee an authentic representation. Perfect for ambitious modelling enthusiasts looking for a comprehensive building experience. Scope of delivery- Plastic model kit (not assembled)- Illustrated, multilingual building instructions- Decals- Base colours (Revell Aqua Color)- Glue (Revell Contacta Professional Mini)- Brushes- Multi-part body- Movable side doors- Rotating wheels Special features This model set is designed for experienced modellers (level 5) who have in-depth knowledge and skills in model building. It offers a challenging and rewarding modelling experience and includes all the necessary materials to get started right away. The VW T1 panel van (Gulf decoration) stands out with its highly detailed components and realistic design. The special Gulf Oil paint finish in light blue-orange, familiar from motorsport in the 1960s and 1970s, makes this model a unique collector's item. The included paints, glue and brushes ensure a perfect building experience right from the start. Background information The T1 Transporter, manufactured from the 1950s onwards, quickly became a symbol of mobility and freedom. With an unladen weight of 975 kg and a payload of 750 kg, it served as a reliable vehicle for many companies. The Gulf Oil paintwork shown here is not only a sign of its success in international motorsport, but also an expression of the cultural heritage associated with this vehicle.- Recommended age: 13+ years- Dimensions: 18 x 7.7 x 8.2 cm- Scale: 1:24- Individual parts: 123
