Product Description

Product description 60th Anniversary Ford Mustang model kit: true to detail on a scale of 1:24 Discover the 60th Anniversary Ford Mustang model kit, an exquisite representation of the legendary car. This 1:24 scale kit impresses with its impressive attention to detail and comprises 92 precisely manufactured parts. Measuring 191 mm long, 72 mm wide and 56 mm high, this model is a truly eye-catching piece. Designed for modellers aged 12 and over, this kit is particularly suitable for advanced modellers (level 4) who already have experience in gluing and painting. Scope of delivery- Multi-part V8 engine- Detailed chassis- Choice of open or closed convertible roof- Various chrome parts- Authentic decals- Base colours, glue and brushes This kit is ideal for advanced modellers (level 4) who already have experience in gluing and painting. It offers a demanding and rewarding challenge for anyone who wants to develop their modelling skills. Special features- Unique 60th anniversary design of the Ford Mustang- Highly detailed components for realistic representation- Build flexibility with the option of an open or closed roof- Impressive chrome parts for an authentic look- Includes all necessary paints, adhesives and tools Background information The Ford Mustang, first introduced in March 1964, revolutionised the automotive market with its sporty looks, affordable price and individual trim levels. The instant success of this "pony car" remains unbroken to this day. The "60th Anniversary Ford Mustang" model kit celebrates this legendary debut. It differs from the models released later in 1964, which are known as the "1964 1/2" models, due to its special features. With this kit, you can recreate and honour a piece of automotive history at home.
