Product Description

The M1A2 Abrams is a third-generation main battle tank that was developed in the USA in the 1980s. It is the successor to the M1 Abrams tank and is still in service with the US Army today, as it is one of the most modern tanks in the world. The M1A2 Abrams was used in the Gulf War, the Afghanistan War and in other conflicts. The Abrams is an extremely powerful tank that combines firepower, mobility and advanced technology. It is a symbol of American armoured power and one of the most dangerous tanks in the world! The miniature model made of COBI building blocks was designed in 1:72 scale and consists of 174 high-quality elements. When built, the tank is 14 cm long. Despite its compact size, the model retains all the important features of its historical role model! The vehicle features printed markings and details typical of this model. The turret of the tank is movable and can be rotated. The model is perfect for a good start to your adventure with COBI building blocks. The American Abrams is also an interesting model and gadget for collectors. It takes up little space and easily finds its place on the desk at home, at work or on the bookshelf. If you are an advanced block builder, this model offers you very interesting elements. Express your passion through building blocks and build history block by block! - 174 high-quality elements- manufactured in the EU by a company with over 20 years of tradition- meets the safety standards for children's products- fully compatible with other brands of clamp blocks- blocks with imprints do not deform or fade during play or under the influence of temperature- clear and intuitive instructions based on drawings and symbols- model dimensions (L x H): 14 cm (5.5 inches) x 5 cm (2 inches) - from 6 years of age
