from **13,90 EUR**

Item no.: 383964
shipping weight: 0.20 kg
Manufacturer: COBI

Product Description

The Barkas B1000 is a delivery van and minibus that was produced in the GDR between 1961 and 1991. It was the only car in this class produced in East Germany and mainly used there. With a set of COBI building blocks containing up to 147 elements, you can build a finished version of a Barkas car. The model has been faithfully reproduced on a scale of 1:35. No stickers are included in the set. The clamp-on building blocks have high-quality imprints that do not wear off even with intensive play. The set has a well thought-out, compact design and movable wheels. Particularly noteworthy is the new light blue colour of the bodywork, which matches this car perfectly. The model complements COBI's 1:35 scale collection of historic cars!- 147 high-quality elements- product under the original BARKAS licence- manufactured in the EU by a company with over 20 years of tradition- meets the safety standards for children's products- fully compatible with clamp building blocks from other brands- building blocks with imprints do not deform or fade during play or when exposed to temperature- scale 1:35- Model dimensions (L x W x H): 12.5 cm (4.9 inches) x 7 cm (2.8 inches) x 6 cm (2.4 inches)- Ages 6 and up
