Product Description

Panzerkampfwagen IV is a German medium tank that was produced during the Second World War. It was one of the best armoured vehicles of the time. Many different versions of this tank were designed and produced. Numerous variants differed in the thickness of the armour and armament. During its entire production period from 1938 to 1945, the Panzer IV had the status of a battle tank. Until 1942, it was the heaviest tank of the Third Reich. The miniature model made of COBI building blocks was designed on a scale of 1:72 and consists of 128 high-quality elements. When built, the tank is 9.5 cm long. Despite its compact size, the model retains all the important features of its historical role model! German markings are printed on the sides of the vehicle. Details such as service flaps and engine ventilation are also printed on! The tank can be moved thanks to the mounted wheels. The turret of the tank is also movable and can be rotated. The side covers on the hull and turret, which are so characteristic of the Panzer IV Ausf., are particularly noteworthy. The model is perfect for a good start to your adventure with COBI building bricks. The Panzer IV is also an interesting model and gadget for collectors. It takes up little space and easily finds its place on the desk at home, at work or on the bookshelf. If you are an advanced block designer, the model offers you very interesting elements. Express your passion through clamping blocks and build history block by block! - 128 high-quality elements - manufactured in the EU by a company with over 20 years of tradition - meets the safety standards for children's products - fully compatible with other brands of clamp blocks - blocks with imprints do not deform or fade during play or when exposed to temperature - clear and intuitive instructions based on drawings and symbols - model dimensions (L x H): 9.5 cm (3.74 inches) x 4 cm (1.57 inches) - ages 6 and up
