shipping weight: 0.80 kg
Manufacturer: TAMIYA

Product Description

The stand model is a 1:48 scale replica of the Nakajima A6M2N T2 Fighter Rufe. The fighter-bomber was used for air defence missions as well as for escorts and could operate in more difficult areas due to the floats. Due to the floats, the overall load and speed were reduced compared to the normal version. The high level of attention to detail is also reflected in the accuracy of fit of the individual parts. The aircraft's equipment also provides a realistic image of the Mitsubishi, making the stand model ideal for a diorama. Model kit, scale 1:48, Length 210.5 mm, 2 figures, instructions, Decoration. Product details Detailed model kit in 1:48 scale. The stand model has the following dimensions: Length: 210.5 mm The high-quality kit from Tamiya must be assembled by the customer. The independent assembly is accompanied by step-by-step and illustrated assembly instructions. The assembly instructions are of course included in the scope of delivery. The precisely fitting individual parts must be assembled on the basis of the assembly instructions. The parts can be painted according to your own ideas. Tools, glue and paint are not included in the plastic kit. These must be purchased as an option.
