from **726,38 EUR**

Item no.: 369640
shipping weight: 1.20 kg
Manufacturer: Carson

Product Description

The ultimate buggy for petrol fans! Big, loud and fast: driving fun is guaranteed with the Wild GP Attack on a scale of 1:5! The heart of the remote-controlled buggy with rear-wheel drive is the 29cc 2-stroke car model engine with 1.8 hp, which accelerates the Wild GP Attack to 65 km/h. The components of the RC off-road machine are completely mounted on ball bearings. The reliable 35 kg steering servo, the full suspension with aluminium coil-over oil pressure shock absorbers and the grippy buggy tyres with lug tread ensure precise steering and traction off-road. With a buggy over 80 cm long and weighing almost 10 kg, safety naturally also plays an important role: the Wild GP Attack is therefore equipped with a failsafe system to switch off the motor in the event of a fault or empty battery. Apart from the two-stroke mixture, the complete package includes all the accessories required for driving: 2.4 GHz Reflex 3 remote control with transmitter batteries, tool set, replacement air filter and mixing canister. Buy - Charge - Drive! Ready-to-run model, Reflex Pro 3 2.4GHz RC system, battery 6V/2000mAh NiMH, quick charger, 4x AA batteries, tools, replacement airfilter, mixing canister, detailed multilingual manual. **ATTENTION!** Not suitable for children under 14 years of age. The packaging must be kept as it contains important information. The illustrations may differ from the product contained in the packaging. CARSON reserves the right to make improvements and changes at any time. Product details Technical details: 1. Failsafe system (motor shutdown in the event of a fault or empty battery) 2. 29cc 2-stroke car model engine with 1.8 hp 3. Aluminium threaded oil pressure shock absorber 4. Completely mounted on ball bearings 5. Ventilated double brake discs 6. Large petrol tank 7. Sound-absorbing resonator pipe exhaust system, polished chrome

Technical data: Length 810 mm Width 470 mm Height 255 mm Wheelbase 580 mm Weight 9600 g Speed up to 65 km/h Riding time 45 min
