RC Car, 1:14 RC Volvo FH16 Tow Truck 8x4

from 1.022,68 EUR

Item no.: 371002
shipping weight: 3.00 kg
Manufacturer: TAMIYA

Product Description

With the Volvo FH16, TAMIYA presents the first truck with 4 axles and steerable double axle at the front. The chassis has been converted to 8x4 and is the perfect basis for the tow truck. The crane body is extremely robust and consists of many metal parts. The crane is powered by an optionally available ACU unit (order number 300056553). This unit can be used to move the crane up and down. The model is supplied as a kit and already includes numerous add-on parts, such as photo-etched parts for the radiator grille, turnbuckles with chains for securing the load and much more. The model has an impressive length of over 70 cm and is driven by the two rear axles. The TAMIYA TR Mighty Tuned truck engine (35T) provides sufficient power. The TAMIYA MFC-03 multifunction unit (300056523) is recommended for the drive, lighting and sound. Due to the enormous length of the model, only the standard MFC LEDs need to be replaced by the special ones with longer cables (300056549 to 300056551). The FH16 is the first TAMIYA truck model in which the driver's cab is permanently bolted on. This means that the MFC can be installed behind the seats and the interior is fully visible. Required accessories: - At least 4-channel remote control - recommended Carson Reflex Stick 500501006 (6-channel), 500501003 (14-channel) or 500501004 (14-channel LCD display) - 7.2V NiMH battery pack, charger - TAMIYA TS paint for the paintwork - Steering servo + servo for manual gearbox - Speed controller or TAMIYA multifunctional unit MFC-03 300056523 for the driving, light and sound functions - TAMIYA speed controller or TAMIYA multifunctional unit MFC-03 light and sound functions - optional ACU unit (300056553) for driving the crane arm Volvo FH16 tow truck model kit, ABS plastic body, aluminium ladder frame, 2 driven rear axles, 3-speed manual gearbox, chrome-plated rims, instructions, 540 electric motor, WARNINGS: The instructions should be read and understood in full by an adult. Keep away from small children. Do not allow children to put any parts or packaging material in their mouths. The model may have some sharp corners. Pay attention to this when handling. Read the instructions supplied with the RC unit and keep them for future reference. If you encounter difficulties during assembly, ask an adult to supervise the work or a model builder with RC experience or a specialist dealer. Only use tools for their intended purpose. There is a risk of injury if used incorrectly. If you use paint and/or glue (not included in the kit), observe and follow the instructions supplied with the kit. Keep the kit away from small children. Prevent children from putting any components in their mouths or pulling plastic bags over their heads. Caution! Not suitable for children under 14 years of age. Product details Technical details: - 1:14 scale kit model - Dimensions: length 750 mm, width 195 mm, height 300 mm - True-to-life ABS body replica of the Volvo FH16 with numerous tuning parts, e.g. photo-etched parts in the front grille, e.g. photo-etched parts in the front grille and cab interior - Double axle at the front with steerable axles via a servo - The rear towing crane is realistically modelled and consists of many metal parts. The ACU unit, which is available separately, is required for the drive. - The metal frame is reinforced. - The power is transmitted from the motor installed at the front to the two rear axles via a metal cardan shaft. - 2 differentials on the rear axles for tight cornering - Detailed metal leaf springs and friction dampers - Includes TR mighty-tuned motor (35T) for perfect power delivery to the two driven rear axles - 3-speed manual gearbox can be controlled via optional 4-channel remote control. - Firmly bolted driver's cab - Highly detailed interior. The multifunctional unit (not included) can be installed behind the seats. - Recommended accessories: MFC-03 multifunctional unit (300056523) for the driving, light and sound functions. - Note: Optional accessories are LEDs with longer cable for this model, which must be replaced by the standard LEDs in the MF.
