Product Description

Pixies is a card game in which little forest creatures play the leading role. In each round, players take it in turns to choose a card from the centre of the table and place it in their display. They decide whether to play the card as a pixie, i.e. a forest creature, or face down as the forest floor. Cards that are already on display can also be covered up, but then one of the two cards must be the forest floor or become the forest floor. Particularly tricky: The number on a Pixie indicates where it must be placed in the display. Therefore, you must always keep a close eye on the other players' displays in order to get hold of valuable Pixies at the right time. The winner is the player who collects the most points using numbers, symbols and colour groups. Important notes Attention! Not suitable for children under 36 months.
