Product Description

As if by magic, cheeky monsters and aliens suddenly appear on the large spiral book. How does it work? It's simple: the 6 different, reusable pictures are coloured in with the special water marker and the hidden illustration appears. This means that even little Picassos aged 3 and over can create fantastic masterpieces in no time at all and be fascinated time and time again by the sudden appearance of the motifs. And all without leaving unsightly splashes of colour on clothes, sofas and the like. The quick fun for in-between times is also perfect for taking with you, not least thanks to its clean application and handy size. - 1 player- 15-20 min- ages 3+
