from **17,22 EUR**

Item no.: 390728
shipping weight: 0.20 kg
Manufacturer: COBI

Product Description

The 37 mm GMG M6 Fargo is an American light armoured vehicle that was used during the Second World War. The Fargo was designed on the chassis of a Dodge WC truck and was armed with a 37 mm M3 anti-tank gun, making it effective against lightly armoured vehicles and fortifications. This vehicle was mainly used by American troops on various war fronts, especially in Europe and the Pacific. The model, published under the RAM licence, was developed in 1:35 scale and consists of 230 elements. The vehicle has a specially developed building block that exactly imitates the appearance of the characteristic grille of GMC trucks. A cannon is mounted on the back of the lorry. There is space for the driver and co-driver at the front. The set includes a unique figure with which you can recreate a scene from camp life. A shaving soldier with foam on his face uses a helmet filled with water during his morning toilet. The set includes accessories (equipment and a rifle). The vehicle and the figure are covered with high-quality prints! The set is the perfect addition to the D-Day collection, which was launched this year to mark the 80th anniversary of the Allied landings in Normandy. - 230 high quality elements- manufactured in the EU by a company with over 20 years of tradition,- meet the safety standards for children's products,- fully compatible with other brands of clamp building blocks,- blocks with imprints do not deform or fade during play or when exposed to temperature,- car model,- figure, American soldier, Model dimensions (L x W): 16 cm (6.3 in.) x 7 cm (2.76 in.)
