Windmill

from **25,80 EUR**

Item no.: 384101
shipping weight: 1.00 kg
Manufacturer: teifoc

Product Description

With the windmill from teifoc, a real miniature windmill made of bricks is created from over 100 components. The mill combines the materials brick and wood and teaches children the art of craftsmanship in a playful way. Recommended for children aged 7 and over, ideally with the support of an adult. This promotes a sense of "we", allows children to build a creative community and strengthens their social skills. Includes tools & illustrated building instructions. A miniature bricklayer's trowel and a mortar bowl ensure a real building experience. The base plate is also included. Illustrated building instructions ensure uncomplicated building fun. Natural materials. The special mortar mixture made from sand and corn extract is water-soluble and harmless to health. Stains on clothing or furniture are also no problem. The bricks made of real clay are fired in our firing chamber at up to 1000 °C, just like the original. Durable and expandable. The bricks of the mill dissolve again when immersed in water. Our bricks can therefore be reused indefinitely for new buildings and the mortar can be reordered individually. Educationally valuable toy. Teach your child about the use of materials when building in a playful way. Encourage fine motor skills, spatial thinking and creativity. The teifoc brand stands for educational toys with added value and is suitable for use in Montessori education. - 100 components - Dimensions: 170x140x110mm - Incl. mortar bowl, base plate, trowel and water-soluble mortar as well as illustrated step-by-step building instructions - Trains fine motor skills, spatial thinking and creativity - Sustainable materials made in Germany
