

Item no.: 384118

Solar house windmill

from 121,51 EUR

Item no.: 384118
shipping weight: 5.70 kg
Manufacturer: teifoc

Product Description

With this solar brick building kit, you can build a multi-storey windmill or a large water mill with a water wheel. Both are powered by a solar module. This is a fun way for children and adults to immerse themselves in the world of technology. Includes tools & illustrated building instructions. A miniature trowel and a mortar bowl ensure a real building experience. The base plate is also included. Illustrated building instructions ensure uncomplicated building fun. Natural materials. The special mortar mixture made from sand and corn extract is water-soluble and harmless to health. Stains on clothing or furniture are also no problem. The bricks made of real clay are fired in our firing chamber at up to 1000 °C, just like the original. Durable and expandable. The components of the mill dissolve again when immersed in water. This means that both versions can be built and the bricks can be reused indefinitely for new buildings. The water-soluble mortar can be reordered individually in different quantities. Educational toy. Teach your child about building materials in a playful way. Encourage fine motor skills, spatial thinking and creativity. The teifoc brand stands for educational toys with added value and is suitable for use in Montessori education. - 380 components - Can be built in two versions: Windmill and watermill with water wheel - Dimensions of the windmill: 200x200x340mm - Incl. mortar bowl, trowel, base plate, solar module and water-soluble mortar as well as illustrated step-by-step building instructions - Sustainable materials made in Germany
