Product Description

The countdown starts, the engines roar and the cars race off. The Grand Prix has begun. Dust blows towards you as you enter the first corner. You get everything out of your bike and almost skid. But with a firm grip on the steering wheel, you hurtle through the apex of the bend, still in the lead. No one will get past you in a hurry! There are no compromises in this race, so go full throttle until the tyres are smoking! Heat is a quick to learn and intuitive hand management game that puts you in the cockpit of a 1960s racing car. Choose the right upgrades for your car to corner perfectly, keep the engine cool and still reach top speeds. The key to victory, however, is your driving skills. Experience the thrill of a single race or use the championship system to race a full season and upgrade your car before each race. No two races in Heat will be the same.
