## 70206 - Manned Mars Rover

from **70,04 EUR**

Item no.: 392529  
shipping weight: 1.00 kg  
Manufacturer: UGEARS

### Product Description

The Rover with increased off-road capability has all-wheel drive. The model is equipped with a spring, independent suspension on springs and large diameter swivelling front and rear wheels to overcome obstacles. The front wheels are positioned as far in front of the body as possible. To operate, you need to open the centre section of the body and wind up the spring. The model is triggered by a slider on the left rear side, which is indicated by arrows. The Mars Rover model from Ugears is a tribute to human exploration and innovation. It is a perfect gift for anyone who has ever been fascinated by science fiction stories and for those who eagerly await news about space exploration. It's a fascinating wooden 3D puzzle for those who have never stopped dreaming of distant worlds and still look up at the stars in wonder. Information- Item no.: 70206- Number of components: 562- Assembly time: 8 hours- Model size: 30 x 14.5 x 18.5 cm
