Product Description

Worldly catastrophes are a balancing act between fighting for one's own survival and helping other people and represent an extreme situation that can traumatise those involved forever. But what happens when the Cthulhu Mythos is added to these events? Then you have a drama that is squared by mythos elements. Very different combinations of disasters are the theme of the five adventures presented here, some of which are based on historical events:- In "The Call of Legrasse", New Orleans is flooded!- "Underground" there is a mining accident!- "Sugar-Sweet Death" - "The Call of Legrasse" - "The Call of Legrasse" - "The Call of Legrasse" - "The Call of Legrasse". "Sugar-sweet Death" centres on the molasses disaster in Boston!- "Death Fog" is set against the backdrop of smog in London!- "Fire and Ashes" features a conflagration near Berkeley! A short source section also provides background information on disasters and tips on how to integrate them into your own adventures.
