from **43,51 EUR**

Item no.: 392505
shipping weight: 0.40 kg
Manufacturer: UGEARS

Product Description

The UGR-S three-wheeler is the latest and coolest model in the Ugears collection. It features spring drive, front and inter-wheel suspension, a working steering wheel that moves the front wheels to the right or left, and a host of great details such as moving pistons, large headlights and special exhaust pipes on the side. The UGR-S three-wheeler from Ugears can travel around 4 metres in a straight line or take graceful turns when the wheels are turned using the steering wheel or by hand. The UGR-S tricycle includes a spring motor and a unique chain drive to the rear wheel. The UGR-S three-wheeler is designed so that you can also move it by hand without switching on the spring motor. Information-Item no.: 70216- Number of components: 457- Assembly time: 8 hours- Model size: 26.2 x 9 x 14 cm
