Product Description

Insert - For Agricola: Family Edition

This insert is designed to be compatible with Agricola Family Edition. The design provides both efficient storage and improved game play. All of the trays can be utilised during the game. The rules and boards act as a lid on top of the trays.

In a game that you play with your children, the assembly and disassembly has a large time factor. With this insert you can quickly get the game on the table and then quickly put it away.

Each player has their own individual player piece tray, which they can keep next to their growing farm during the game.

For the token and wooden Animeeple there are specific trays. There is a separate place for each type of component, and all of them can be easily accessed during the game.

The room and field tile trays are stored vertically, with sufficient space to organise them by type. As these trays are slightly lower than the other two layers of trays, there is a plinth piece which goes underneath them. This lifts them up so that the tiles are kept against the board above and can not move around. This plinth should remain in the game box.

As mentioned above all the trays can be used during the game to organise the components and make access by all players easy.

The three out-sized field tiles go on top of the room and field tile trays. These are recessed down slightly to provide space for these big fields. Finally the board and game rules go on top, filling completely the box space. The lid closes flush over everything and allows for vertical storage.

Attention! Not suitable for children under 36 months.

Note: Insert designed for game with external box dimensions of 19 x 27.3 x 7 cm

This product consists of a flat-pack of 3x Evacore sheets. The trays require assembly, which is quick and fun, using ordinary PVA glue. Detailed instructions are included in the package.

Attention: The game must be purchased additionally. The content of the trays on the pictures is not included!

- Gross weight: 400 g
- Packaging dimensions: 25.5 x 35.5 x 1.7 cm
- Material: Evacore sheets
