Product Description

Insert - For Kingdom Death Monster Expansions

This Insert compatible with Kingdom Death Monster and the expansions. It has space for a total of 560 standard sized cards and 300 gear cards in total. The insert is intended to be used together with the FS-KDM insert and together they will fill the game box.

The trays are stored on the right hand side of the box. There is a slot at the top where the settlement location cards are stored vertically in a slot next to the trays.

These are all the trays that come with this expansion insert. There are four trays for the standard sized cards and two trays for the gear cards. There is space for all cards to be sleeved with quality sleeves.

The gear card trays can be used on in one of two ways: either for gear cards, or placed sideways for standard cards. The latter option can be used if you are storing your gear cards in a binder. If the trays are used for the standard sized cards then there is storage space for a total of 760 sleeved cards in the whole FS-KDM+ insert.

When this insert is combined with the FS-KDM insert they fill the game box. When both inserts are used the total number of sleeved standard cards is increased to 1.860 and the gear cards to 740. With gear cards in a binder folder the total standard cards is increased to 2.250.

Attention! Not suitable for children under 36 months.

Note: The insert is designed to fit the 1.5 version of the game. The insert works fine with the older 1.3 version, but the box is approximately 7 mm lower and in this case the lid will not close fully flush. It is designed for games with external box dimensions of 62.8 x 32.5 x 13.5 cm.

This product consists of a flat-pack of 4x Evacore sheets. The trays require assembly, which is quick and fun, using ordinary PVA glue. Detailed instructions are included in the package.

Attention: The game must be purchased additionally. The content of the trays on the pictures is not included!
