Product Description

Insert - For Mysterium and Expansions: Hidde Signs, Secrets and Lies

The insert is compatible with Mysterium and its expansions Hidde Signs and Secrets and Lies. There is also space for any promo cards you might have.

The design provides both efficient storage and improved game play. The token trays can be utilised during the game and all trays greatly aid set-up and clear-away times. The rules and boards act as a lid on top of the trays. There is enough space for all cards to be sleeved.

The card decks are all removable from the box and have space for all cards to be sleeved with quality sleeves.

There are two trays for the psychic's sleeves and the other irregularly shaped pieces. The other two trays are for the player pieces, with separate slots for each colour.

There are card trays which form part of the bottom layer of the insert.

Many of the game trays can be used during game play to keep the components tidy as well as speeding up setup and clear-away times.

The rules, board and other tiles go on top of the trays. First go the clairvoyance track and epilogue progress board, together with the clock. The clock face needs to be placed face-down so that the dial fits into the top of the card tray below.

Next go the rules from the main game and the expansions. Last goes the game screen with the other four progress boards go in a stack next to the screen.

Attention! Not suitable for children under 36 months.

This product consists of a flat-pack of 4x Evacore sheets. The trays require assembly, which is quick and fun, using ordinary PVA glue. Detailed instructions are included in the package.

Attention: The game must be purchased additionally. The content of the trays on the pictures is not included!
