Product Description

Insert - For Near and Far and Expansion: The Amber Mines

The insert is compatible with Near and Far and its expansion the Amber Mines. The design provides both efficient storage and improved game play. The token trays can be utilised during the game and all trays greatly aid set-up and clear-away times. The rules, books and boards act as a lid on top of the trays. There is enough space for all cards to be sleeved.

There are trays for the player pieces, the character standees and sheets. There are two trays for coins, meaning they can be spread around the table making access easier. The coin trays are sufficiently large for the metal coins should you have them. Each player has their own tray for their colour.

There are the four resource trays with separate slots for each kind of token and the dice and stands. Furthermore, there are large card trays which form part of the bottom layer of the insert.

As mentioned above all the trays can be used during the game to organise the components and make access by all players easy. This also speeds up setup and clear-away times.

The game boards, rules and storybook fit in a recess on top of the lower trays. The rulebook goes first, which provides space for the ring binder on the storybook to go next. The storybook is followed by the game board and player boards and then by the Amber Mines rulebook and the board overlays.

Last goes the game atlas, which fills the top of the box, acting as a lid on all the trays below. There is a gap next to the rules underneath that allows the ring binder to not impact on the box lid when closed. The game can be stored vertically and transported safely provided the lid is kept in place.

Attention! Not suitable for children under 36 months.

Note: It is designed for games with external box dimensions of 29.7 x 29.7 x 7.3 cm.

This product consists of a flat-pack of 4x Evacore sheets. The trays require assembly, which is quick and fun, using ordinary PVA glue. Detailed instructions are included in the package.

Attention: The game must be purchased additionally. The content of the trays on the pictures is not included!

- Gross weight: 500 g
- Packaging dimensions: 25.5 x 35.5 x 2.2 cm
- Material: Evacore sheets
