Product Description

Insert - For Scythe Fenris and Expansions: Wind Gambit, Scythe Encounters

The insert is compatible with Scythe Fenris and its expansions Wind Gambit and Scythe Encounters.

The design provides both efficient storage and improved game play. Many of the trays can be utilised during the game and they greatly aid set-up and clear-away times. The rules and boards act as a lid on top of the trays.

This insert can be combined with our insert (Scythe and Invader expansion) inside the Legendary box. The best way to do this is to add the insert (Scythe and Invader expansion) to the box with the boards on top, and then simply place the Fenris box, with this insert inside, on top. This fills the box and holds the bottom trays in place. Alternatively, the trays can be added separately to the Legendary Box.

The insert is organised with the miniatures on the bottom level, and the rest of the components on top.

There are three card trays for the airship and resolution tiles and other large cards with sufficient room for all cards to be sleeved with quality sleeves. There are two long trays for other game tiles, including one slot for the Tesla mono-wheel miniature. There are then two separate trays for the faction pieces.

There are trays for the two faction mechs and leader miniatures, and then two large trays for the airships. The airship trays store the miniatures snugly head-to-toe in a neat order. The last airship slot is used for the ships' bases. At the end of each of the trays are slots for vertical storage of the infrastructure and mech mods.

The main rulebook goes on top with the binder ring. Then go the reference sheet, followed by the score-sheet and other campaign tiles. This is followed by the Wind Gambit rules and the player boards. Lastly go the combat dials. The box can be stored vertically.

Attention! Not suitable for children under 36 months.

Note: It is designed for games with external box dimensions of 26 x 30 x 8.5 cm.

This product consists of a flat-pack of 6x Evacore sheets. The trays require assembly, which is quick and fun, using ordinary PVA glue. Detailed instructions are included in the package.

Attention: The game must be purchased additionally. The content of the trays on the pictures is not included!

- Gross weight: 700 g
- Packaging dimensions: 25.5 x 35.5 x 3.3 cm
- Material: Evacore sheets
