Insert: Frostpunk

from **25,09 EUR**

Item no.: 371047
shipping weight: 0.90 kg
Manufacturer: Folded Space

📄 Product Description

Note: This product is designed for a box size of 31.8 x 31.8 x 14.3 cm.Use compatible with Frostpunk®, including the Frostlander® expansion. The design provides both efficient storage and an enhanced gaming experience. Many of the compartments can be used during play, making set-up and put-away much easier. The boards and rulebooks serve as lids on the trays.The insert is arranged in up to four layers, with the generator placed at the top of the box as shown.The Discontent and Hope bags are added to the two included trays. When properly placed in the box, they will hold the generator in place and prevent it from moving when the game is stored. The edge board pieces are placed in a stack at the bottom of the box next to the main card tray as shown. The two card trays are sized for cards with sleeves. All components are sorted by type and the building tile trays allow you to organise and flick through the tiles to find the ones you need. The two resource trays work just as well with the optional plastic pieces from the Resources Expansion®. Since they have two compartments, they can be placed on either side of the table so that all players can easily access them.When packing the box, first place the rulebook and scenario book on the insert trays. Next, add the responsibility sheets and the generator tile. Finally, add all the remaining boards in a single stack. When the box is fully loaded, it is filled to the brim so that it can be stored vertically.FS-FPUNK is an unofficial third-party game accessory. All trademarks and copyrights remain the property of their respective owners, who are in no way affiliated or related to Folded Space EOOD.This product consists of a flat pack of 8 Evacore sheets. The compartments must be assembled quickly and easily using ordinary PVA glue. Detailed instructions are included in the package.
