Manufacturer: Folded Space

Product Description

Note: This product is intended for a box size of 29.7 x 29.7 x 7.4 cm. Official, full-colour insert, compatible with Revive®, with space for the Call of the Abyss® expansion. The design offers both efficient storage and improved gaming enjoyment. Many of the trays can be used during play, making set-up and put-away much easier. The rules and boards serve as lids on the trays. Note that adding the boards and tracks from the expansion raises the lid by 5 mm. There is only one section of the box, which consists of two layers. Each player gets their own player tray for their counters and tokens. There is space for all cards, which can be packed in sleeves. Each tray contains pictures from the rulebook or playing cards and boards. Each player tray has a tribal image and is colour-coded to match the pieces. The pictures greatly enhance the look of the trays, but also help with tidying up the game as you can immediately see what belongs where. When packing the box, first place the game board on the trays. Then add the player and tribal boards as shown. Finally, add the rulebook. This will fill the box completely without having to lift the lid and the game can be stored vertically. Note that the Call of the Abyss® expansion will cause the lid to lift 5mm when the box is fully loaded due to the additional tribal boards and devotion track. FS-REVIVE is an officially licensed insert product manufactured in partnership with Aporta Games®. All trademarks and copyrights remain the property of their respective owners, who are in no way affiliated or associated with Folded Space EOOD. This product consists of a flat pack of 4 Evacore sheets. The trays must be assembled quickly and easily using normal PVA glue. Detailed instructions are included in the package.
