📄 Product Description

Note: This product is intended for a box size of 24.9 x 24.9 x 7.7 cm.folded space insert organizer Cascadia colour insert AEG Games Flatout Games LandmarksOfficial full colour insert compatible with Cascadia, including space for the Landmarks expansion. The design provides both efficient storage and improved game play. Many of the trays can be utilised during the game, and they greatly aid set-up and clear-away times. The rules act as a lid on top of the trays.The trays are arranged in up to two layers. There is a gap in the top right corner which is for the bag of wildlife tokens, scorepad, and starter habitat tiles.There is space for all cards to be sleeved. The insert includes two trays for the hexagon habitat tiles which can be used during game play. Every tray includes images from the rulebook or game cards and boards. The images greatly improve the look of the trays, but also help in game clear up as you can instantly see what goes where. For this game we had some space left on the third sheet so we have included two "coaster" pieces which can be used as you wish. On one side they are branded with the game and expansion box lids, on the reverse with our own logo. When packing the box, first place the starter habitat tiles, scorepad, and cloth bag in the gap provided. Next simply place both rulebooks on top. This fully fills the box without any lid lift and allows for vertical storage of the game.Note: there is only room for one full scorepad, not two. FS-CSCDA is an officially licensed insert product made in partnership with AEG Games and Flatout Games. All trademarks and copyrights remain the property of their respective owners, which are in no way associated or affiliated with Folded Space EOOD.This product consists of a flat-pack of 3 Evacore sheets. The trays require assembly, which is quick and fun, using ordinary PVA glue. Detailed instructions are included in the package.
