

Item no.: 374016

Insert: Age of Innovation

from **25,09 EUR**

Item no.: 374016
shipping weight: 0.60 kg
Manufacturer: Folded Space

Product Description

Note: This product is designed for a box size of 36.5 x 30.0 x 8.3 cm. Insert compatible with Age of Innovation. The design allows for both efficient storage and improved play. Many of the trays can be used during the game and make set-up and put-away much easier. The boards and rulebooks serve as lids on the trays. The insert is arranged in up to three layers, with large square trays for the game pieces in the bottom layer. There are seven player trays. Each tray has space for eight terrain tiles, with one side showing the terrain for the respective player colour. If you need more, you can take them from one of the unused trays. Each player tray also has space for a palace placeholder tile and a 100/200-point token. The eighth tray is for the white neutral pawns and the starting competence tiles. The insert contains a large tray for the playing cards, faction tokens and round bonus tokens. There is space for all cards, which can be packed in sleeves. All game pieces and tokens are categorised by type. The resource trays can all be placed next to the game board during the game. Once the insert trays are packed into the box, you must place the planning indicators on top of the player trays. Next, add the two small book tile trays on the left side along with the rulebooks. Then place the game board, the science display and the interlocking additional innovation display boards on top of the rulebooks. The game order display and action overview tiles are added in a single layer, followed by the base section of the innovation display. Once the box is fully loaded, it is filled to the brim so it can be stored vertically. FS-AOI is an unofficial third-party game accessory. All trademarks and copyrights remain the property of their respective owners, who are in no way affiliated or associated with Folded Space EOOD. This product consists of a flat pack of 7 Evacore sheets. The compartments must be assembled quickly and easily using normal PVA glue. Detailed instructions are included in the package.
