FS-TAPE - Insert: Tapestry grey

from **25,09 EUR**

Item no.: 365123
shipping weight: 0.80 kg
Manufacturer: Folded Space

Product Description

Note: This product is designed for a box size of 29.7 x 29.7 x 10.0 cm. Use compatible with Tapestry®, including the Plans & Ploys® and Arts & Architecture® expansions. The design allows for both efficient storage and an enhanced play experience. Many of the inserts can be used during play, making set-up and put-away much easier. The boards and rulebooks serve as lids on the inserts. The insert is arranged in up to two layers, with space on one side for the civilisation and capital mats. Each player gets their own player insert, and the territory tile insert can be used to randomly distribute these face-down tiles instead of using the bag from the expansion. Each building type in the group is separated to speed up construction. The insert provides space for all cards to be packed in sleeves. Note that the square masterpiece card deck is stored together with the landmark card deck in a single slot. Once the inserts are packed into the box, you must place the city and civilisation mats in a stack on top of the player inserts. The bag can be rolled up and placed in the slot as shown. Next, place the main game board and the smaller boards on the insert. Lastly, place the rulebooks. When the box is fully loaded, it is filled to the brim so that it can be stored vertically. FS-TAPE is an unofficial third-party game accessory. All trademarks and copyrights remain the property of their respective owners, who are in no way affiliated or associated with Folded Space EOOD. This product consists of a flat pack of 7 Evacore sheets. The trays must be assembled quickly and easily using normal PVA glue. Detailed instructions are included in the package.
