 Manufacturer: Folded Space

Product Description

Note: This product is designed for a box size of 37.1 x 27.2 x 5.6 cm. Foldable insert organiser Beyond the Sun Official insert, compatible with Beyond the Sun®, with space for the Leaders of the New Dawn® expansion. The design provides both efficient storage and an enhanced gaming experience. Many of the trays can be used during play, making set-up and put-away much easier. The rules serve as lids on the trays. The trays are arranged in a single layer, with a space at one end for storing player aids and spare/guild cover tiles. There is space for all cards to be packed in sleeves. Each player receives a player tray with their coloured dice, tokens and action pieces. The tray contains an unusual piece that is a kind of filler to prevent the faction mats from warping. Place this piece on top of the player aids to hold the other tiles in place and keep the faction mats flat on the layer above. When packing the box, first place the faction mats on the bottom layer of the trays and the shorter technology board and Doomsday Tracker board in the large card tray. Next, place the technology board and the exploration board on the trays and cover everything. Finally, place the rulebooks and the long technology board on the trays. This will completely fill the box without having to lift the lid and the game can be stored vertically. FS-BSUN is an officially licensed insert product produced in cooperation with Rio Grande Games Inc. All trademarks and copyrights remain the property of their respective owners, who are in no way affiliated or related to Folded Space EOOD. This product consists of a flat pack of 3 Evacore sheets. The trays must be assembled quickly and easily using normal PVA glue. Detailed instructions are included in the package.
