shipping weight: 0.50 kg
Manufacturer: Folded Space

Product Description

Note: Insert for a game with external dimensions of 29.5 x 29.5 x 7.4 cm. This is the revised design for Teotihuacan. Insert compatible with Teotihuacan®, including the Late Preclassic Period®, Shadow of Xitle® and Expansion Period® expansions. The design offers both efficient storage and improved gameplay. The trays can be used during the game and make it much easier to set up and put away. The rules and boards serve as lids on the trays. The insert is a revised design of our original FS-TEO insert, with this new version providing space for the Expansion Period® expansion. The insert contains trays for storing and organising all game components. Each player gets their own player tray and all resources are organised for easy access. All trays can be used during the game to organise the components and facilitate access for all players. Using the trays during the game also significantly reduces clearing times. The main game board and the Empire board are placed first on the trays, which act as lids. Next comes the expansion board, followed by the rulebooks. This fills the box to the brim and the game can be stored vertically. FS-TEOV2 is an unofficial third-party game accessory. All trademarks and copyrights remain the property of their respective owners, who are in no way affiliated or associated with Folded Space EOOD. This product consists of a flat pack of 4 Evacore sheets. The trays must be assembled quickly and easily using normal PVA glue. Detailed instructions are included in the package.
