Product Description

Note: This product is intended for a box size of 29.7 x 29.7 x 7.1 cm. folded space insert organizer earth colour insert insideup games Official full colour insert compatible with Earth®. The design provides both efficient storage and improved game play. Many of the trays can be utilised during the game, and they greatly aid set-up and clear-away times. The rules and boards act as a lid on top of the trays. The full colour print really brings the trays to life, tying them in with the theme of the game and making it easier to see which components go where. There are two pairs of resource trays, allowing you to place them at both ends of the table for easy access by all players. Each player receives their own player tray for their tokens and counters. There is space for all cards to be sleeved. Every tray includes images from the rulebook or game cards and boards. The images greatly improve the look of the trays, but also help in game clear up as you can instantly see what goes where. When packing the box, first place the game board on top of the trays in the recess provided. Lastly add the rule book to cover everything. This fully fills the box without any lid lift and allows for vertical storage of the game. This product consists of a flat-pack of 6 Evacore sheets. The trays require assembly, which is quick and fun, using ordinary PVA glue. Detailed instructions are included in the package. FS-EARTH is an officially licensed insert product made in partnership with InsideUp Games®.
