### Product Description

Map Archive tile folder, compatible with Frosthaven®, to complement our FS-FROST insert. The folder is an accordion style folder with labelled pockets sized to fit map tiles grouped by tile number. FS-FHMAP keeps all your tiles organised and significantly speeds up your set-up time when preparing a new scenario. The folder is delivered fully assembled and is made of high-quality printed cardboard. The materials used have been deliberately chosen so that the folder is recyclable. Each of the card tile slots in the folder has labelled tabs, so you always know where to go for each type of card tile. The accordion style allows the folder to open wide for easy access. The folder makes setting up any game scenario super fast, with every map tile ready to be deployed on the table. FS-FHMAP Map Archive is designed to fit exactly on top of the Frosthaven game box in a single standard Ikea Kallax shelf slot. This way you have your folder at hand when you need to bring the game to the table. The FS-FHMAP card archive is also compatible with the fantastic Frosthaven game bag from BoardGameTables.com! FS-FHMAP is an officially licensed accessory product produced in partnership with Cephalofair Games®. All trademarks and copyrights remain the property of their respective owners. This product consists of a single sheet of cardboard. No assembly required.
