### Product Description

Note: The insert is designed for games with external box dimensions of 23.5 x 30.1.5 x 8 cm. Official full colour insert, compatible with Call to Adventure®. It is separately compatible with every game in the Call to Adventure® series, including Call to Adventure: Epic Origins®, Call to Adventure: The Stormlight Archive® and Call to Adventure: The Name of the Wind®. The design offers both efficient storage and improved gameplay. Many of the trays can be used during the game, significantly reducing set-up and clearing times. The rules serve as a lid on the trays. The trays are arranged in up to three layers as shown. All trays are printed in full colour inside and out. There is space for all the cards, which can be wrapped in high-quality sleeves. Each pack of cards has its own compartment. The insert includes a filler tray which is placed in the centre of the bottom layer. The card and resource trays can be used during the game to simplify set-up. When packing the box, first place the player mats on the trays and then the rulebook to seal the contents of the trays. The campaign envelopes can be placed on top for now and when opening, the components can be sorted into the appropriate compartments. This fills the box completely without having to lift the lid and allows the game to be stored vertically. FS-CTA is an officially licensed insert product manufactured in co-operation with Brotherwise Games®. All trademarks and copyrights remain the property of their respective owners, who are in no way associated or affiliated with Folded Space EOOD. This product consists of a flat pack of 5 Evacore sheets. The trays must be assembled quickly and easily using normal PVA glue. Detailed instructions are included in the pack.
