Item no.: 365101
shipping weight: 0.40 kg
Manufacturer: Folded Space

Product Description

Note: The insert is designed for games with external box dimensions of 22.9 x 31.0 x 7.9 cm. Insert compatible with Dominant Species®. The design offers both efficient storage and improved gameplay. Many of the trays can be used during play, significantly reducing set-up and clearing times. The trays are arranged in up to two layers as shown below. Note that the terrain hexagons are arranged in two stacks on either side of the map tray. The FS-DOMSP insert works equally well with dominant types: Marine. The insert contains a tray for each colour of player pieces, so the pieces are separated by type. The card tray offers enough space for sleeved cards. There is also a filler tray to keep the other trays in place and make room for the bag of element tokens. When packing the box, first place the game board on the trays. This is followed by the rulebook and two stacks of animal illustrations. This fills the box completely and allows the game to be stored vertically. FS-DOMSP is an unofficial third-party game accessory. All trademarks and copyrights remain the property of their respective owners, who are in no way associated or affiliated with Folded Space EOOD. This product consists of a flat pack of 3 Evacore trays. The trays must be assembled quickly and easily using normal PVA glue. Detailed instructions are included in the pack.
