

Item no.: 374412

**Insert: CoraQuest**

from **9,73 EUR**

Item no.: 374412  
 shipping weight: 0.30 kg  
 Manufacturer: Folded Space

**Product Description**

Note: Insert designed for game with external box dimensions of 23.0 x 23.0 x 4.8 cm. Official full colour insert compatible with CoraQuest®, and separately compatible with the Keep on Questing® expansion. The design provides both efficient storage and improved game play, with removable token trays for use during the game. The rulebooks act as a lid on top of the trays. If you have the expansion you will need two separate inserts, and also the use of the trays is slightly different. Please see below for more info. The card trays are sized for sleeved cards. The two slots for standees are large enough for them to be added with their stands attached. Note that the big boss health dial is added to the slot for the enemy standees. Every tray includes images from the rulebook or game cards and boards. The images greatly improve the look of the trays, but also help in game clear up as you can instantly see what goes where. Note that the tray bases are reversible, depending upon whether you are using the tray for the base game or for the expansion. Please see below. When packing the box, simply add the rulebooks on top of the trays. This fully fills the box and allows for vertical storage of the game. If you own both the game and the expansion (and hence have two separate inserts) you can utilise the tray slots slightly differently to best store the cards and components. The cards are re-arranged with the treasure & starting equipment decks in the base game box, and the remaining decks in the expansion box as shown. The standees can also be rearranged with the heroes in one slot in the base game, and the big bosses in the same slot in the expansion box. Three of the four insert trays come with double sided bases - you need to choose which side you want face up depending upon whether the tray will be used for the base game or for the expansion. These images show the expansion bases face-up. FS-CORAQ is an officially licensed insert product made in partnership with Bright Eye Games®. All trademarks and copyrights remain the property of their respective owners. This product consists of a flat-pack of 2 Evacore sheets. The trays require assembly, which is quick and fun, using ordinary PVA glue. Detailed instructions are included in the package.
