## Insert: Lost Ruins of Arnak

from **21,06 EUR**

Item no.: 365112  
 shipping weight: 0.60 kg  
 Manufacturer: Folded Space

### Product Description

Official colour product, compatible with Lost Ruins of Arnak. Contains space for the expansion "Expedition Leaders" and also space for the cards and components of the expansion "The Missing Expedition". Note: Inlay for games with external dimensions of 37.0 x 25.7 x 7.5 cm. Please note that this is our revised inlay for Lost Ruins of Arnak. Insert compatible with Lost Ruins of Arnak. Includes space for the "Expedition Leaders" expansion and also for the cards and components of the upcoming expansion "The Missing Expedition", but not for the new boards. The design offers both efficient storage and improved play. Many of the trays can be used during the game and they make it much easier to set up and put away. The trays are arranged in up to three layers. The insert contains trays for storing and organising all game components. There is space to put all the cards in high-quality sleeves. Each player gets their own player tray, which can be used to store resources during the game. Many of the trays are designed to be placed directly on the game board, and their colour print is designed to match the board in the area where they are placed. In this way, the trays become a seamless part of the board. Packing the box is simple: first place the small player boards in the recess provided and the larger player boards on top. Place the scoring pad and the player aids at one end of the box on the player boards. Next, place the supply board, the research board and the expansion rule book on the left-hand side in the recess provided. Finally, place the main game board and the rule book on top. This completely fills the box and the game can be stored vertically. FS-LRAv2 is an officially licensed product manufactured in co-operation with Czech Games Edition. All trademarks and copyrights remain the property of their respective owners. This product consists of a flat pack of 5 Evacore sheets. The trays need to be assembled quickly and entertainingly using ordinary PVA glue. Detailed instructions are included in the package.
