Item no.: 365119  
 shipping weight: 0.40 kg  
 Manufacturer: Folded Space

### Product Description

Insert compatible with Praga Caput Regni®. The design provides both efficient storage and improved game play. Many of the trays can be utilised during the game, and they greatly aid set-up and clear-away times. The trays are arranged in up to two layers. The hunger wall, cathedral and bridge pieces are placed on the right of the box. There are two long trays for vertical storage of the hexagon tiles. The building, wall, and upgrade tiles of both Era I and Era II each have their separate slots. The insert includes trays for storing and organising all of the game components. Each of the types of tile and token have their own slot in the trays giving easy access to all players. As mentioned above, all of the trays can be used during setup and game play. When packing the box first place the main game board on top of the insert trays, taking care to have the wheel face up. Next place the player boards face down on top of the board with the dials arranged around the wheel on the main board as shown. Next place the end pieces from the hunger wall and cathedral next to the player boards, and then the four action boards on top. Lastly add the rule book and reference sheets. This fully fills the box and allows for vertical storage of the game. This product consists of a flat-pack of 3 Evacore sheets. The trays require assembly, which is quick and fun, using ordinary PVA glue. Detailed instructions are included in the package.
