Item no.: 365122
shipping weight: 0.60 kg
Manufacturer: Folded Space

Product Description

Note: Insert for games with external dimensions of 29.7 x 29.7 x 7.3 cm. Insert compatible with Star Wars: Outer Rim®, including the Unfinished Business® expansion. The design allows for both efficient storage and an enhanced gaming experience. Many of the shelves can be used during play, making it much easier to set up and put away. The insert is arranged in up to three levels. There is space for all cards to be packed in sleeves and the figure stands can be stored with their attached bases. Each card deck type has its own slot so that you can quickly access the various market cards, for example. The credit token tray divides the different denominations into separate slots and can be placed on the table within easy reach of all players. The tray for the target and damage tokens works in a similar way to the tray for credit tokens, but has a raised base. This raised bottom allows the tray to fit into the insert as filler to keep the boards and ship bows in place. When packing the box, you must place all the card tokens, player boards and ship sheets in the space provided at the top of the piece placement tray. This works best if the player boards are at the bottom and the other tiles/sheets are at the top as shown. Finally, place the three rulebooks on top of everything. When the box is fully loaded, it is filled to the top so the game can be stored vertically. FS-SWORIM is an unofficial third-party game accessory. All trademarks and copyrights remain the property of their respective owners, who are in no way affiliated or associated with Folded Space EOOD. This product consists of a flat pack of 5 Evacore sheets. The trays must be assembled quickly and easily using normal PVA glue. Detailed instructions are included in the package.
