Product Description

Note: Inlay for games with external dimensions of 29.7 x 29.7 x 7.2 cm. Official full-colour inlay compatible with Call to Adventure®, including the Call to Adventure: The Name of the Wind® expansion. It is separately compatible with every game in the Call to Adventure® series, including Call to Adventure: Epic Origins® and Call to Adventure: The Stormlight Archive®. The design offers both efficient storage and enhanced gameplay. Many of the trays can be used during gameplay, making it much easier to set up and put away. The rules serve as lids on the compartments. The compartments are arranged in up to three layers as shown. All trays are printed in full colour inside and out. There is space for all cards, which can be packed in high-quality sleeves. Each pack of cards has its own compartment. The insert contains a filler compartment that is added in the centre of the bottom layer. The card and resource trays can be used during the game to make set-up easier. There is an extra copy of the rune tray so that a second set of runes can be stored in the insert. When packing the box, place the player mats first and then the rulebook on the trays to seal the contents of the trays. The campaign envelopes can be placed on top first, and when they are opened, the components can be sorted into the appropriate trays. This completely fills the box without the need to lift the lid and allows the game to be stored vertically.
