Item no.: 394568  
shipping weight: 1.10 kg  
Manufacturer: Funko Games

### Product Description

Five Nights at Freddy's Collectable Battle Game Card Game Fightline Premier Set Board Games & Accessories Five Nights at Freddy's At the start, each player takes 3 figures to form a team. If you don't have enough figures, take 2 figures and a character token. Take the cards (or tokens) of your chosen characters. Make sure that the non-injured side of the card is facing up (i.e. the coloured side). Form a line with three cards in front of you, this will be your battle line. Make sure that figure 3 is closest to you. Next, place a figure or token on each card in the order you have chosen. Then place the dice, dots and coins so that each player can reach them. Next, play heads or tails to determine who gets to go first. The person who goes first receives 1 coin, the person who comes second receives 2 coins. As soon as it is your turn, you may carry out 2 different actions. You may choose them at random, but you may not perform the same action twice in one turn. You can choose between the following actions: swap 2 dolls, take a coin, perform an action and attack. When you attack, you roll a die to determine whether you hit or not. If you hit, you receive one point. Each player also has one action that they can perform during a turn. The first player to collect 7 points wins. Details- Number of players: 2- Age: 6+- Multilingual instructions
