### Product Description

Kutná Hora: City of Silver Item no.: CZ122 EAN: 4260664071006 Overview: - Number of players: 2-4 - Playing time: 30 minutes/player - Age: 13+ - Language: EN - Author: Ondřej Bystron, Petr Čáslava, Pavel Jaroš Kutná Hora: City of Silver Master the intricacies of a dynamic supply and demand economy as you mine silver, expand your influence over guilds and build a historic Czech city complete with a beautiful Gothic cathedral. Will you manage to reconcile your personal goals with the prosperity and growth of the city? Or will you create a family legacy that will live on in the history books? Kutná Hora is a historical city-building Eurogame for 2 to 4 players and offers a realistic supply and demand experience in which every action has an impact on the game's dynamic economic systems. In each round, players take turns choosing actions from a hand of double-sided cards. They use these to, for example, mine, buy land to build on, obtain permits, construct buildings for their affiliated guilds, make profits from their production and, of course, work towards building the Cathedral of St Barbara. The asymmetrical alignment of guilds available to each person makes for highly interactive rounds where every decision affects the economy and other people in interesting ways as you mine and build infrastructure on a shared board. Mine ore and smelt it into silver to expand this beautiful historic city. But be careful to balance your personal goal with the task of growing the city. Everything is connected, and sometimes the path to personal victory depends on the prosperity of the masses.
