### Product Description

Shadowrun: The Lord of the Mists (Hardcover) Under Grey Wings Never get involved with dragons! Every Shadowrunner knows this warning. But what if a dragon asks for help, and this dragon is the Lord of Mists? What do you do when the friendly living dragon needs help in a game that takes the runners to faraway places and to powerful enemies that Nebelherr wants to prove himself to? Do you still believe the familiar warning or is it time to break new ground and make a deal with a dragon? Lord of the Mists is an in-house production by Pegasus Press and a campaign volume for Shadowrun, Sixth Edition, whose action takes place mainly in the ADL and in Austria. In four acts, the Runners represent the dragon Lord of the Mists in an ancient draconic ritual that is to be performed for the first time in the Sixth World. In the process, they not only compete against other dragons, but also against mega-corporations and other horrors. Will they be successful in the end? Will Nebelherr achieve his goal, for which the runners have to risk their lives several times? In fully developed runs, several scenarios and with lots of background information, you can let your runners have a say in whether Nebelherr achieves his ambitious goal.
