Product Description

It's summer, and in the middle of the forest lies The Glade. In The Glade, you fill your personal forest board with sets of forest tiles showing creatures, leaves and forest fruits. Create matching board sets of three tiles to make your toadstools sprout in the central glade board. That's how you score points! But you'll score even more if you clear mushrooms from the clearing board by placing the right forest tile. If you also manage to make mushrooms sprout on your forest board, you can give them away for bonus moves or keep them for more points - as long as no one takes them away from you by placing them appropriately. - Takes the "Rummikub" mechanism to the next level - Game with a cosy nature theme that still requires brains- Number of players: 1-4 people- Suitable for ages 14-99- Playing time: 30-60 minutes- Packaging: 296 x 296 x 70 mm
