Product Description

Treehouse Diner by Funtails Author: Rüdiger Dorn Illustrator: Maikel Cheney Treehouse Diner is the first Funtails family game developed by world-class author Rüdiger Dorn. Under the new Funtails Family label, we are now making our fantastic components and excellent game principles accessible to the whole family. The inviting material and the beautiful illustrations (with cute animals!) make children, parents and grandparents want to pick up the game and play! However, as soon as the players run their kitchen in Treehouse Diner, the family bonds are put to the test. Because now the players compete to prepare the most dishes by the end of the game and try to get the required ingredients as quickly as possible. Grandma might return the favour by flooding you with extra orders, so watch out - you know how ambitious she is! Maybe the time the children put in to save the stray bees will make the difference! 2 - 4 people Ages 8+ 45 minutes
