Nebuchadnezzar II, King of Babylon, has summoned his best builders to construct the legendary Hanging Gardens. Stand out with your garden and present it to the king so that your name will go down in the history books for all time. The players embody the roles of master builders who have to build a garden for King Nebuchadnezzar II. The game box represents the quarry, in which tiles are laid out. On their turn, each player takes a tile from the quarry, takes building elements and uses them to build their garden. The building elements are columns, stairs, fountains and small viewing platforms in 3D. Each player builds their own beautiful 3D garden. At the end of the game, players receive victory points for their construction. Whoever has the most victory points wins the game. Game type: Family game
