Product Description

Terra Pyramides by HUCH!- Item no.: 883339- EAN: 4260071883339- Author: Michael Kiesling, Wolfgang Kramer- Illustrator: Lukas SiegmöIn Terra Pyramides, players compete to acquire building sites to construct pyramids of different sizes. They need money, resources and workers to build the most magnificent pyramids, for which they receive points. Whoever has the most points at the end of the game wins. Each player must place exactly one tile on the game board in a round. All tiles on the board that are in a straight or diagonal line to the tile just placed are then activated. The tiles contain workers, resources and money that can be activated/obtained by the player. Workers and resources are required to build pyramids. The workers must "walk" in an uninterrupted straight or diagonal line to the pyramid building sites. If a player has enough resources and three of their workers on a building site, they can build another level for this pyramid, which earns them points. Money can be used for bonus actions, e.g. to obtain wild resources or to search through a pile and select a tile. The game ends when all piles of tiles have been used up. Each pyramid is worth points, depending on how far a player has occupied the pyramid. Remaining resources and money are also worth points. Terra Pyramides comes with two expansions in the box. While the basic game is aimed more at family players, the expansions add additional strategic elements that make the board game more complex.- Strategy novelty from the successful author duo Kramer & Kiesling- Simple basic version, sophisticated expansion already includedDetails- Number of players 1 - 4- Suitable for 10 - 99 years- Playing time 45 - 90 minutes- Packaging 300 x 300 x 70 mm
