Product Description

"A single fighter with a sharp stick can decide the war if he has nothing to lose." - Saw Gerrera Rebel sleeper cells have been secretly forming across the galaxy to undermine the growing influence of Imperial rule. The actions of these cells can be felt in a variety of ways, and some cause headaches for the governing bodies, including large-scale direct attacks on military targets. The sleeper cells are considered experts in guerrilla warfare. They sneak behind enemy lines and cause as much chaos as possible. They are also creative and adaptable, and have a variety of weapons, tools and explosives with which to fight back if they are exposed. This unit expansion for Star Wars™: Legion contains eight highly detailed Rebel Sleeper Cell miniatures (enough for a Special Forces unit) as well as a new unit card and new upgrade cards. A Star Wars: Legion base game is required to play.
